# JANOU TREFFERS

## Front-end Developer

I am ready to contribute to front-end development projects with creativity and a passion for effective storytelling.

Enthusiastic Front-End Developer with years of experience driving impactful web development projects. Proficient in React, Redux, and Typescript, I collaborated with cross-functional teams in an Agile setting.

### EXPERIENCE

---

#### Personal projects

2023-2024

Building a website for favorite family recipes using Next.js, MongoDB, and Tailwind. Practicing form validation and testing on client side.

Learning schema markup, validation, and design patterns. Rebuilding a Real Estate app featuring favorite country houses and castles.

---

#### Front-End Developer NEP Group Broadcasting

May, 2022 - Dec, 2022

Developed a media platform implementing user-friendly interfaces with React, Redux, and Typescript.

Built and refined a component library in Storybook for consistent design across platforms, using Material UI and custom SASS styling based on Figma designs.

Improved accessibility compliance with ARIA guidelines, enhancing usability for diverse audiences.

Wrote unit tests with Jest, debugging and optimizing JavaScript components for performance and reliability.

Proactively initiated team-building activities, fostering a collaborative and positive team environment.

### SOFT SKILLS

---

Creative	Independent
Collaboration	Fast learner
Problem solving	Innovative

### TECH SKILLS

---

HTML, SCSS	Tailwind
Javascript	Chakra UI
React, Vue	Material UI
Typescript	SASS
Jira	Next.js
Agile Scrum	Remix
